Summary

Aspiring AI Engineer with a strong foundation in Python, Data Structures, Machine Learning, and AI. Developing expertise in Generative AI, LLMs, RAG, vector databases, and AI agents. Skilled in building practical software projects using backend technologies and databases. Passionate about creating intelligent, scalable solutions to solve real-world problems.

Skills

Programming Languages: Python, HTML, CSS, SQL, JavaScript

Frameworks: Flask

Databases: SQLite, SQL

Developer Tools: Git, GitHub, VS Code

Core Concepts: Data Structures Algorithms, Object-Oriented Programming, DBMS, Computer Networks, Operating Systems, Problem Solving

Experience

AI/ML – Intern **May 2026 – june 2026** *SISGA Soft Technologies* *Python , Flask, ML*

- Gained hands-on exposure to Artificial Intelligence and Machine Learning concepts through practical tasks and projects.
- Worked with Python and explored data preprocessing, analysis, and machine learning workflows.
- Applied problem-solving and programming skills to develop practical solutions for assigned tasks.

Projects

Student Management System **2026**

- Developed a web-based system to manage student profiles, marks, attendance, and academic records.
- Built the backend using Python and Flask with SQLite for structured data management.
- Implemented secure admin authentication, dashboard metrics, and student record management.
- Designed a responsive interface using HTML, CSS, and JavaScript.

AI Career Interview Assistant **2026**

- Developing an AI-powered platform that provides personalized career recommendations and skill analysis.
- Implemented modules for resume analysis, interview preparation, career recommendations, and learning roadmaps.
- Designed a modular backend architecture using Python and Flask with dedicated AI service engines.
- Integrating AI-driven workflows to help students identify skill gaps and prepare for technical careers.

Education

Bachelor of Technology (B.Tech) **Graduated: 2026** *SriKrishnadevaraya University* *CGPA: 8.00 / 10*
